Protect, Secure and Stop ConnectWise Manage Breaches with OneLogin

Secure and control access to ConnectWise, create and enforce security policies, eliminate all ConnectWise passwords with SAML, and stop breaches with strong Multi-factor authentication (MFA). Together, OneLogin and ConnectWise Manage *give end-users an experience they love and IT the security and control it needs.*

OneLogin for ConnectWise Manage Product Highlights

Directory Integration

Single Sign-On (SSO)

Multi-Factor Authentication

Self–Service Password Reset

Strengthen Your Identity Strategy With These Benefits

Protect Access to ConnectWise Manage & Other Apps

ConnectWise Manage hosts a variety of data across your organization. Secure access and accelerate user adoption by allowing employees to use their master credentials to log into ConnectWise Manage and all their corporate SaaS applications.

Eliminate Deployment Complexity

Leverage OneLogin's pre-built ConnectWise Manage integration with powerful mappings and rules engine to automate the ConnectWise Manage deployment process. Spend less time on manual entry and more time on other IT initiatives.

Decrease IT Operations and Support Costs

Free up IT time and resources with built-in self-service password reset, significantly reducing helpdesk tickets.

Customize Security Controls

Create and enforce customized security policies such as multi-factor authentication, password complexity, session timeout, and more. Easily map those policies based on user attributes or other identifiers such as IP address.

Advanced Security and Scalability

Rest easy with redundant data centers in the U.S. and Europe, massive scalable infrastructure, quarterly security reviews by iSEC partners, and 24/7 monitoring. Plus, 99.9% uptime guarantee.

Leading MSPs choose OneLogin to protect *hundreds of thousands* of users, *thousands* of apps, and eliminate *millions* of passwords

and many more...

Integrates with Your Existing Directory Infrastructure

SAML authentication requires users to access ConnectWise Manage through OneLogin every time they log in. This completely eliminates passwords for ConnectWise Manage, dramatically lowering the threat of password-related attacks. Access to ConnectWise Manage is further secured with MFA. Access Management through OneLogin makes compliance and reporting easy. Find out who and how often users log into ConnectWise Manage. Stop breaches and protect your customers by securing ConnectWise Manage with OneLogin.
