onelogin | Dropbox

Accelerate Your Cloud-First Strategy with OneLogin for Dropbox

Trust OneLogin to take complete control over Dropbox access, provision and deprovision users in real-time, create and enforce security policies, and add a second factor of authentication. Dropbox is a leader in content security and online file sharing for businesses. Together, OneLogin and Dropbox give end-users an experience they love and IT the security and control it needs.

OneLogin for Dropbox Product Highlights

Directory Integration	Single Sign-On (SSO)	User and Groups Provisioning	Multi-Factor Authentication

Strengthen Your Identity Strategy With These Benefits

Protect Access to Dropbox and All Apps

Dropbox hosts a variety of data across your organization. Secure access and accelerate user adoption by allowing employees to use their master credentials to log into Dropbox and all their corporate SaaS applications.

Customize Security Controls

Create and enforce customized security policies such as multi-factor authentication, password complexity, session timeout, and more. Easily map those policies based on user attributes or other identifiers such as IP address.

Eliminate Deployment Complexity

Leverage OneLogin's pre-built Dropbox integration and powerful mappings and rules engine to automate the Dropbox deployment process. Spend less time on manual entry and more time on other IT initiatives.

Advanced Security and Scalability

Rest easy with redundant data centers in the US and Europe, massive scalable infrastructure, quarterly security reviews by iSEC partners,and 247 monitoring. 99.9% Uptime Guarantee.

Decrease IT Operations and Support Costs

Free up IT time and resources with built-in self-service password reset and automated user provisioning and deprovisioning based on user's directory attributes or security groups originating from your corporate directory.

OneLogin is Trusted by 2000+ Customers Worldwide

THE CARLYLE GROUP   AAA   CONDÉ NAST   MIDAS   HermanMiller

Integrates with Your Existing Directory Infrastructure

OneLogin acts as a secure, virtual directory in the cloud, allowing you to easily synchronize users across any number of directories, including Active Directory (AD), LDAP, Google Apps directory, OneLogin cloud directory, and HR directories. Import user attributes and pass them on to Dropbox and other downstream applications via SAML or API-based provisioning.
