## Accelerate Your Cloud-First Strategy with OneLogin for OneSpan Sign

Trust OneLogin to take complete control over OneSpan Sign access, provision and deprovision users in real-time, create and enforce security policies, and add a second factor of authentication. OneSpan is a leader in automating workflows with electronic signatures to improve customer experience, strengthen compliance, and eliminate costs related to paper-based processes by delivering a risk-free eSignature solution that suits all your business needs. Together, OneLogin and OneSpan give end-users an experience they love and IT the security and control it needs.

### OneLogin for OneSpan Sign Product Highlights

Directory  
Integration

Single Sign-On  
(SSO)

User  
Provisioning

Multi-Factor  
Authentication

### Strengthen Your Identity Strategy With These Benefits

#### Protect Access to OneSpan Sign and All Apps

OneLogin / OneSpan hosts a variety of data across your organization. Secure access and accelerate user adoption by allowing employees to use their master credentials to log into OneSpan Sign and all their corporate SaaS applications.

#### Eliminate Deployment Complexity

Leverage OneLogin's pre-built OneSpan Sign integration and powerful mappings and rules engine to automate the OneSpan Sign deployment process. Spend less time on manual entry and more time on other IT initiatives.

#### Decrease IT Operations and Support Costs

Free up IT time and resources with built-in self-service password reset and automated user provisioning and deprovisioning based on user's directory attributes or security groups originating from your corporate directory.

#### Customize Security Controls

Create and enforce customized security policies such as multi-factor authentication, password complexity, session timeout, and more. Easily map those policies based on user attributes or other identifiers such as IP address.

#### Advanced Security and Scalability

Rest easy with redundant data centers in the US and Europe, massive scalable infrastructure, quarterly security reviews by iSEC partners, and 24/7 monitoring. 99.9% Uptime Guarantee.

Over 2,000 enterprise customers globally secure their applications with OneLogin

## Integrates with Your Existing Directory Infrastructure

OneLogin acts as a secure, virtual directory in the cloud, allowing you to easily synchronize users across any number of directories, including Active Directory (AD), LDAP, Google Apps directory, OneLogin cloud directory, and HR directories. Import user attributes and pass them on to OneSpan Sign and other downstream applications via SAML or API-based provisioning.
